

Work Zone Safety Presentation - Thursday, August 8 from 11:15 - Noon.

Come visit us for an outdoor presentation on August 8 from 11:15 - Noon out in front of the Presidio Ballroom. This presentation is a discussion on Work Zone Safety, Smart Work Zones and the direction of the industry as a whole. This presentation will include a demonstration of the equipment used in traffic control, trench safety, along with a showing of some of the new advancements in Smart Work Zones. The overall goal of this breakout session is to talk about the advancement of equipment used and how it affects stakeholders involved in work zone safety. Stakeholders include: Agencies in charge of the project, the contractors awarded the project and the safety of the general public traveling through the work zone.

If you want to learn more, come on out and join us. **Shade and cold drinks** will be provided to any that want to brave the heat and see the latest in work zone safety. Also, you can come visit us at booths 44 and 45 throughout the conference and trade show.

We look forward to seeing you there.
